

Corporate Governance Statement of Stefnir hf. 2016

By issuing this corporate governance statement Stefnir hf. (Stefnir) is fulfilling the requirements set out in recognized guidelines current at the time this Financial Statement is approved by the company's board of directors and the provisions of Article 19 of Act No. 161/2002, cf. Article 12 of Act No. 75/2010. The Guidelines on Corporate Governance, 5th edition, issued by the Icelandic Chamber of Commerce, SA – Business Iceland and Nasdaq Iceland hf., and the OECD's Principles of Corporate Governance from 2015 were used as a reference when Stefnir hf.'s corporate governance statement was written. The Guidelines on Corporate Governance and the Principles of Corporate Governance can be viewed on Stefnir's website.

In 2012 Stefnir was the first Icelandic company to be recognized for "Excel-

lence in good corporate governance." This honour was granted by the Center for Corporate Governance at the University of Iceland and is based on a survey conducted by the auditing company KPMG ehf. In 2014 Stefnir was granted the same recognition, which applies for two years, and it therefore remains a model company in good corporate governance in Iceland.

The board of directors of Stefnir believes that good corporate governance is a key factor behind Stefnir's success as a leading fund management company in Iceland. Corporate governance provides companies with a framework in which objectives are defined, which tools should be used to achieve these objectives and how the success of these objectives is measured. Good corporate governance is designed to provide the

right incentives to the board of directors and management to exploit the opportunities which serve the interests of the company, the shareholders and general public. Good corporate governance also enables the board to perform its monitoring duties effectively.

Stefnir is an independent financial institution according to the Financial Undertakings Act No. 161/2002. The company manages UCITS, investment funds and institutional investor funds under Act No. 128/2011. In addition to this, the company is licensed to operate asset management services, investment advisory and to manage financial instruments for collective investments, cf. subparagraphs 1-3 of paragraph 1 of Article 27 of Act No. 161/2002. Stefnir is Iceland's largest fund management company with assets of approximately ISK

400 billion under active management. Stefnir has 21 employees with extensive experience of work in financial markets.

Stefnir is a subsidiary of Arion Bank hf. The company is fully owned by Arion Bank and related companies. The company's corporate governance statement serves to encourage open and reliable communications between the board, shareholders and other stakeholders such as unit holders in funds managed by Stefnir, parties that service and participate in the operations of Stefnir, employees and the general public.

The company's operations are subject to stringent restrictions by the legislator. The company's operations are governed by acts of law including the Financial Undertakings Act No. 161/2002 and the UCITS, Investment Funds and Institutional Investor Funds Act No. 128/2011. Stefnir is supervised by the FME under Act No. 87/1998.

Risk management and active internal control are mainstays of the responsible operation of a fund management company. The company's board of directors has devised a risk strategy for the company:

"Stefnir's board of directors is aware that risk management and active internal control are some of the mainstays of a responsible fund management company. By setting out a clear risk policy the board wishes to encourage and support a corporate culture at Stefnir which is characterized by a keen sense of risk awareness. The aim is also to communicate clear messages to all the company's stakeholders.

All risk within Stefnir's operations is identified and assessed on a regular basis. The company has established processes to monitor and report this risk. Stefnir operates a strong control environment which utilizes policies, processes and systems to appropriate internal controls and risk mitigation. Stefnir has in place

a continuity plan to ensure the ability to operate despite a severe business disruption. Through corporate governance the board of directors ensures that the policies, processes and systems are implemented at all decision levels."

Compliance, internal auditing and risk management are partly outsourced to Arion Bank with the permission of the FME. The heads of the relevant divisions regularly report the results of their assessments to the auditing committee and the board of directors of Stefnir. Internal control and risk management is the responsibility of special team at Stefnir which reports directly to the managing director. All supervision measures are documented and regularly assessed by the team. The auditing committee is informed of the progress of these measures.

The company's accounting is the responsibility of Arion Bank's finance division. The FME has authorized the outsourcing of this task. Arion Bank is also the depositary of Stefnir hf. and the price calculations of funds managed by Stefnir are the responsibility of the Bank. The auditing committee examines the company's financial statement and obtains the opinion of an external auditor on the six-month financial results and 12-month financial results of Stefnir and the funds managed by Stefnir. Reporting to the board of directors with respect to the accounts is the responsibility of the committee; the board also meets the auditing company Deloitte ehf.

Stefnir's core values have been an important guideline for employees and the board of directors, who devised them together, in their day-to-day work.

The first core value is "success through knowledge" which implies that our strengths are embodied in the combination of knowledge, experience, professional corporate governance and fund

management. Meticulous working practices, responsibility and reliability lay the foundations for future success. By doing this we are safeguarding our clients' interests.

Our second core value is "the ambition to excel" which describes our progressive, determined and dynamic approach in which we do not hesitate to seek new ways to achieve our goals. Fertile thinking, ambition and financial clout provide a platform for us to lead the way in developing new financial products. This is how we create key opportunities to excel for the benefit of our clients.

The third and final core value is "united in a strong team" and it describes how the way we operate is characterized by clearly defined team work, mutual respect and a healthy team spirit in which we support each other in what we do. We are known for our well-considered decisions which we regularly review and re-evaluate. This is how we harness the synergy of a dynamic team in order to provide our clients with outstanding service.

The company's core values reflect the ethical standards which the board and employees are working in accordance with, and other benchmarks on the same topic can be found in employment agreements, the conflicts of interest policy and the board of directors' rules of procedure.

The company has not established a policy on corporate social responsibility but in setting out its strategy and defining its role the board of directors has underlined the importance of being guided by the interests of clients, owners, employees and society as a whole when managing funds and running the company. Responsible and diverse investment options and thorough disclosure of information are central to the corporate social responsibility that the company aspires to demonstrate.

Stefnir has adopted a policy on conflicts of interest. The objective of the policy is to protect clients and fund members and to safeguard the independence and reputation of the company and its employees. The policy applies equally to directors and employees and implies that the company will take all available measures to prevent conflicts of interest from damaging the interests of clients and fund members. An extract of the policy and other rules designed to prevent conflicts of interest, e.g. rules on business dealings by employees of Stefnir, can be found on the company's website.

The role of the auditing committee will be modified in 2016 as changes to the Financial Undertakings Act No. 161/2002 are introduced. The committee will be called the audit and risk committee, the selection of committee members will differ from the current format and its tasks will be redefined in the committee's rules of procedure. These changes will be introduced in the spring of 2016.

The shareholders' meeting of Stefnir has not decided that the board shall appoint a nomination committee.

The board of directors of Stefnir jointly devised the following mission statement for the board:

The board's key role is to establish a corporate strategy and ensure that it is implemented. The core of the strategy is for the company to be a leading fund management company and to ensure that the interests of clients, owners, employees and the community at large are prime considerations. The focus is on running a solid and profitable business and minimizing risk. The board places a strong emphasis on good corporate governance and ensuring that the board and company operate at all times in compliance with the law, rules and good business practices.

The role of the board is defined in more detail in the rules of procedures and the company's articles of association.

The board assesses its work annually and proposes ways to make improvements. The managing director is not present during the assessment and the chairman leaves the meeting when the board members assessed her work. The assessment is then compiled, the board's proposals for improvements are sent out the relevant parties and a time frame is set for completion.

The company's managing director since 1 July 2009 has been Flóki Halldórs-son (born 1973), an economics graduate from the University of Iceland. He or related parties have no shareholdings or call options in the company. The managing director is responsible for ensuring that the day-to-day operations of the company are conducted according to the strategy and instructions given by the board of directors; cf. Article 68 (1) of the Public Limited Companies Act. He is responsible for reporting to internal and external supervisory bodies. The managing director is authorized, upon approval by the board, to grant other employees of the company the power to handle limited authorizations of his/her duties.

The managing director is responsible for analyzing, measuring, monitoring and supervising risks associated with the operations of the company. The managing director shall maintain an organizational chart that clearly specifies areas of responsibility, employees' authorizations and channels of communications. The managing director shall formalize objectives for internal control in consultation with the board and ensure that the follow-up is efficient. The managing director hires and dismisses the employees of the company, other than those discussed in Article 16 of Act No. 161/2002 and discharges them.

The board's rules of procedure were established with reference to Article 54 (2) of the Financial Undertakings Act and Article 70 (5) of the Public Limited Companies Act. The rules of procedure are largely based on guidelines No. 1/2010 of the Financial Supervisory Authority (FME) and the company's articles of association. The work undertaken in relation to the company's recognition as a model company in good corporate governance has been important in this respect.
